**Election/restriction**

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

- I. Claims 1-6, drawn to a product of an EL display device, classified in Class 313, subclass 504.
- II. Claims 10-17 and 7-9, drawn to a method of manufacturing EL display device, classified in Class 445, subclass 24.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (M.P.E.P. § 806.05(f)). In the instant case, the product of EL display device can be made by another and materially different process such as by spray coating or dip coating organic material spread on a resin plate.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, because of their recognized divergent subject matter, and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. R. Goodell on 7-19-05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2879

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
